

Your international employees safely on the road faster

With Arrive & Drive™, experienced drivers from outside the EU/EEA prepare faster for their Dutch driving license!

Attracting international talent is one thing. Making sure employees can move around the Netherlands independently and safely as quickly as possible is just as important. For many employees from outside the EU/EEA, there is a clear deadline after arrival: their foreign driving license is only valid in the Netherlands for a limited period.

Avoid a mobility gap after 185 days

With a valid driving license from outside the EU/EEA, a new resident can usually drive in the Netherlands for 185 days. If the driving license cannot be exchanged, both the CBR theory and practical exams are required.

That is exactly why it is advisable **to start preparing well before** these 185 days expire.

This allows the employee to become familiar with Dutch traffic during this period, complete the theory exam and prepare specifically for the practical exam.

At LesDirect, we personally support experienced international drivers in obtaining their Dutch driving license quickly. **No traditional training program lasting several months**, but focused preparation for Dutch traffic and a fast-track CBR practical exam.

Arrive & Drive™, accelerated from intake to practical exam

Arrive & Drive™ is designed to make this transition smooth and efficient — depending on existing driving skills, often within two weeks — allowing both employers and employees to benefit from improved mobility, safety and productivity sooner.

Why Arrive & Drive™?

- ✓ **Accelerated route** to a NL driving licence for experienced international drivers
- ✓ **Intensive driving** training focused on Dutch traffic and examination standards
- ✓ **Adapt quickly** to Dutch driving style, observation techniques and traffic situations
- ✓ **Exam dates available** at short notice
- ✓ **Seamless theory preparation** with our Online Theory Crash Course
- ✓ **Personal intake** determines existing driving experience and required training
- ✓ **Pick-up & drop-off** from selected NS train stations to our training location

Best guarantee to get your Dutch drivers licence fast!

What does Arrive & Drive™ offer your organization?

Mobility: international employees become independently mobile in the Netherlands faster;

Productivity: less dependence on colleagues, taxis or public transport;

Safety: familiarizing employees with Dutch traffic rules and traffic situations;

Cost control: focused training based on existing driving experience prevents unnecessary lessons;

Employee experience: practical support during onboarding and relocation in the Netherlands;

Flexibility: increases the practical deployability of employees within your organization;

Good employment practices: a valuable additional service for international employees;

Attract & retain talent: strengthens your relocation offering and your appeal as an international employer.

Register one employee or reserve places on a structural basis
